

Zamboni Policy

As per City of Mississauga policy, players are not supposed to go on the ice surface until the Zamboni is off the ice and the operator has closed the Zamboni door.

Players, occasionally, seem to forget this rule. **THIS IS A HIGHLY DANGEROUS THING TO FORGET.** Players standing in the open door of the player's bench or sitting on the boards at the bench can be pushed onto the ice in front of the Zamboni.

This practice must not happen. Doors of the players benches must remain closed until the Zamboni operator closes the Zamboni door. Also players are asked not to sit on the boards prior to going on the ice.

Coaches and referees are asked to make sure that doors to players' benches are closed when the Zamboni is coming on the ice.
